

Dear Tabernacle School Families,

*We're excited to announce upgrades to our summer program — open to **all Tabernacle School students!** This summer starts the 2026-2027 school year theme - Around the World!*

Research shows that without some educational engagement, many students experience “summer slide,” with test scores often flattening or dropping slightly. Fun, consistent activities can prevent or minimize these losses and help students return sharp in the fall.

*That's why we're launching our **Summer Surge Program!** We've built on our trusted summer daycare program by adding engaging, grade-appropriate learning activities taught by our experienced staff. We've created a **Daily Summer Schedule** to keep the activities consistent and students moving forward.*

Same affordable rates as regular summer daycare!

Full-time: \$700/month

Drop-in: \$10/hour

Additional Cost: See calendar for cost of individual off-campus trips.

Outings: Four summer Cowell Pool trips and seven Thursday field trips (check calendar for dates and fees).

*In addition to the Summer Surge Program, we're adding **CAMPS taught by seasoned teachers.** See our camps online for camp dates and cost.*

We encourage families to mix in learning however it fits your summer—through our classes, library visits, apps, games, travel discussions, or hands-on projects. Small, joyful efforts go a long way! We are thrilled to offer a fun, enriching summer here on campus that helps every student thrive. Your feedback is welcome as we continue improving for our Tabernacle families.

Thank you for your partnership—we look forward to a great summer!

*Warm regards,
Administration and Staff
Tabernacle School*

THE TABERNACLE PLAY 60 PROGRAM One Hour of Play, Every Day

To feel great and to maintain a healthy weight, children need at least 60 minutes of physical activity every day. Physical activity is anything that gets your heart pumping or makes you stronger. The Tabernacle Play 60 Program provides exciting ways to insure that your child reaches the 60 minute goal. Physically active children tend to grow up to be physically active adults.

ELECTRONICS FROM HOME CANNOT BE USED DURING MEETINGS OR ACTIVITIES
